A Burlington
Environmental Inc.
Company

February 12, 1991

Dear Customer:

Enclosed is an edit copy of the Chempro 1990 report to the Washington Dept. of Ecology as pertains to the hazardous waste Chempro managed for your company last year. Waste streams not regulated by EPA or WDOE are not reportable, therefore, will not appear on this copy. If you sent waste to more than one Chempro facility, there will be more than one report enclosed.

Please verify the accuracy of the following items:

1. The Generator Name
2. The 12 digit Generator EPA ID number
3. The weight in pounds (a 10% variance is allowed)
4. The site address - be sure it is not a mailing address only

If you find that your records and the Chempro report do not match, call C-H-E-M-P-R-O (243-6776), and ask for Elizabeth Moriarty, no later than Friday, February 22nd. Please have your copy of the report in front of you when you call.

We hope this information will be helpful. Chempro appreciated the opportunity to manage your hazardous waste in 1990, and we are looking forward to providing this service again in 1991.

Sincerely,

Hal Williams
Sales Manager
